Dear Prof. Hector Avalos

Thanks a lot for your excellent paper (Scientific one)
"May at Nedjuga - A critical Inquiry."

I was in Nedjuga last April, and I will be present
with all my faculty first September 95.

Sensually, I think that Nedjuga phenomena
are very important for the World, and probably
are the only solution to gain "peace"

in ex-yugoslavia.

Maybe, it would be very important to convince
some American Cardinal or Bishop to go
in private pilgrim in Redjugaze, and to
see exactly what happens in this area of
Bosnia - Herzegovina.

Hopping to see you in France,
America, or in Redjugaze

Sincerely

Jews
